***Claim Rejections - 35 USC § 112***

1. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The step of providing an electronic computer means is vague and indefinite. See, also, providing an ATM. In claim 4, said asset lacks antecedent basis, as does said charity (claim 7), the screen (claim 8), electronic input (claim 100), and said donation (claim 12).

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,2, and 4-20 are is rejected under 35 U.S.C. 102(b) as being anticipated by Giveonline.org.

The reference teaches of providing an electronic communication means and transferring a donor designated asset in accordance with instructions. (See paragraph 1, of sheet 1.) The examiner takes official notice that each of the method steps of claims 2,4-6,11-13, and 16-20, are inherent steps to the generic charitable giving process. As for claim 15, the non-monetary donation can read on a credit card number.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Giveonline.org.

The reference discussed above fails to teach of providing an ATM. The examiner takes official notice that is well known to add non-banking transaction to an ATM. It would have been obvious for one skilled in the art at the time to devote a stand alone terminal with the functions described in the prior art as motivated by the need to reach people who otherwise have no access an electronic computer means.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard C Weisberger whose telephone number is 703 308 4408.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vince Millin can be reached on 703 308 1065. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
